FIRE ALARM SYSTEM PRODUCTS

FIRE ALARM CONTROL PANEL

All our Fire alarm products are made as per EN 54 as well as IS 2189 Standards.

Our Fire Alarm products have ETDC approval

We have overseas tie-up for Addressable range of panels & accessories.

Our Microcontroller based 2 zone panel can be expanded into a 12 zone panel.

One number 12v x 7AH battery is sufficient as the panel is having a built in converter. Hence direct savings will be 50% on the battery cost.

Standby battery support for 24 hours in normal condition & 30 min. in alarm condition.

Operating Voltage – 12 / 24 V DC

UL appd. detectors can be supplied ex-stock.
